

Name: _____

Date: ___ / ___ / ___

Fraction Spelling

Write this week's spelling words in the first column. In the second column, write the number of vowels in each word as a fraction. Then write the number of consonants as a fraction in the third column. (Hint: you will need to know the total number of letters in each word before you can write the fractions)

Examples:

WORD	VOWELS	CONSONANTS
finger	2/6	4/6
small	1/5	4/5

In the example above, the word *finger* has six letters. Two of those letters, or $2/6$ of the letters, are vowels, and four of the letters, or $4/6$, are consonants.

Write your spelling words and the consonant and vowel fractions on the back of this page.
